ITI SOLUTIONS, INC. PROVIDES COMPREHENSIVE INTELLIGENCE SUPPORT TO IT'S CUSTOMERS WORLDWIDE.

ITI is an SBA Certified 8a, and a VA Certified

Service-Disabled, Veteran-Owned Small Business.

A DIVERSIFIED COMPANY WITH EXPERTISE IN:

- Operations Support and Technology Research
- Engineering and IT Services
- Language and Analysis Support
- Intelligence Operations Training
- Payload Maintenance
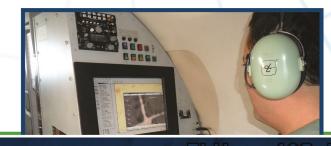

ITI'S INTELLIGENCE MISSION

To successfully deliver High Quality Intelligence Operations Support services and other Intelligence support tasks required by US Government Customers and Commercial Customers.

INTELLIGENCE OPERATIONS SUPPORT & TECHNOLOGY RESEARCH

ENGINEERING & IT SERVICES

INTELLIGENCE OPERATIONS TRAINING

ITI is a provider of Operational Support Services to USG customers within the United States and Overseas. Our team has extensive experience in the areas of Signals and Imagery Processing Evaluation and Dissemination (PED). Our personnel are highly experienced in the areas of Mission Management, Counter-Narcoterrorism, Counterinsurgency and Standard Military Operations, and are subject matter experts in Western Hemisphere targets.

We have been involved in the development of all operational aspects of various Department of State (DoS) International Narcotics Law Enforcement (INL) DOD & DHS sponsored programs to include:

- Intelligence Analysis Support
- Language Support
- Collection Site Selection
- Signal Surveys
- Infrastructure Studies
- Airborne and Ground Based Collection, Processing and Evaluation Dissemination of Data
- Concept of Operations (CONOP) Development
- Developing mission related information databases

Engineering & IT services provided include:

- System Design & Integration:
  - AETIOS Data Management System
  - Airborne Downlink Systems
  - FLIR Workstations
  - SIGINT Collection Systems
  - Intelligence Center Infrastructure
- Network Design, Installation, and Integration and Maintenance:
  - Currently supporting 25th Air Force Language Portal
  - Wilford Hall IM/IT program– Network Admin, Help Desk Support
  - Airborne Surveillance Operations in Latin America
- System Support:
  - Onboard mission essential sensors
  - Ground Intelligence Operations Center Supporting Airborne Platforms
- Software and Database Development:
  - Partnerships with Universities and Agencies have resulted in the development, upgrade and enhancement of existing software
  - Wilford Hall IM/IT Software Development Support
- Falcon View: Improved system functionality with addition of mission analytical tools.
- System Testing and Validation
- Acceptance Testing

ITI personnel have been involved in training intelligence sensor operators and analysts within the DoD and MOS producing programs and from various countries. As part of these programs, Core Introductory, Advanced courses, and Payload specific courses have been developed and delivered in the United States and Overseas locations, using mobile training teams.

Highlights of our training services include:

- Needs Assessment
- Data Research and Course Development
- Delivery (Platform and Computer Based)
- Classroom and Operational Instruction
- Validation and Certification
- Instructional System Development (ISD) Based Courses
- Pre-deployment training services (OEF) - Cultural Familiarization, Driving, Weapons and Basic Lifesaver courses
- Interactive Multi-media Instructional Course Development
- Target Specific Courses (e.g.) - Signals and Imagery Analysis - Sensor Maintenance
