

## A.1 Zone 1 – Northeast Zone

Zone One				
Functional Area	Contract	Team Member	Prime/Sub	Customer
3.5	W15P7T-10-D-D421/TO0002	AASKI	Prime	Army Contracting CMD-APG
<p><u>Program Classification: Unclassified</u></p> <p><b>3.5 System Design Documentation and Technical Data Support:</b> AASKI supported the development of the Capabilities Production Document (CPD) for the Wideband, Satellite Operations Management System (WSOMS) and is participating in Program Management Defense Communications and Army Transmission Systems (PM DCATS) effort in developing the WSOMS architecture.</p> <p><u>Primary Processes and Procedures:</u>  AASKI analyzes new technology, provides Systems Engineering Support, and integrates commercial Operational Support Systems (OSS) in support of PM DCATS' initiatives. AASKI supported the development of the Capabilities Production Document (CPD) for the Wideband, Satellite Operations Management System (WSOMS) and is participating in PM DCATS effort in developing the WSOMS architecture. In the development of the CPD, AASKI addressed those production elements unique to each increment of the acquisition program. Furthermore, AASKI provided an authoritative and testable industry capabilities for the research and development (R&amp;D), the Production and Deployment Phases of the acquisition program. AASKI supported the Requirements Manager by providing the Key Performance Parameters (KPP) for the Production, Testing and Deployment of the WSOMS. In the development of the CPD, AASKI provides the acquisition community with:</p> <ul style="list-style-type: none"> <li>• Performance capabilities</li> <li>• Ways to deploy the new product in support of users</li> <li>• Mechanisms to support fielded systems</li> </ul> <p>In preparing the CPD, AASKI considered among others, policy, joint concepts, Concepts of Operations (CONOPS), operational threats, as well as any previous capability documents.</p>
